

Skopje, 9 and 10 March, 2012

**SECOND INVITATION FOR  
AN INTERNATIONAL SCIENTIFIC CONFERENCE ON:  
“FACES OF THE CRISIS”**

It seems that we are living in times of insecurity and anxiety that affect not only individuals but whole groups of people and societies in general. A shadow looms above Europe: a shadow of CRISIS. What are its many FACES? What is the WAY OUT of it? What are its diverse phenomena in the economy, politics, criminology, security, informatics, medicine, and psychology? What aspects do artists give to it in their eternal pursuit for the quintessence of emotions, perceptions and intellect?

We invite You to come and contemplate together on all these challenging issues that will be discussed at the Second International Scientific Conference, “Faces of the Crisis”, that will take place at the European University Republic of Macedonia in Skopje, on 9 and 10 March 2012.

Plenary lectures for all participants will be held by eminent scientists in the subfield that we have put forward as a subject and a challenge.
